## Philosophy

### **General Discussions Regarding the Applications of Various Philosophical Concepts to Life in America Today**

That title sounds more ambitious and intellectual than I intended, but it will do. The purpose of this section of the website is to act as a forum where we market farming herbal supplement makers, computer scientists, chefs, brewmasters, business owners, employers, and employees of all types can have philosophical discussions.

Philosophy is important to us as individuals and as a business. Philosophy puts our actions in context, helps us set goals, and acts as a control mechanism for our lives.

We are interested in your views on topics such as economics, politics, medicine, and religion. We don't mean to offend anyone with our views and we welcome thoughtful criticism... maybe you'll change our minds.
